SUMMARY

I am a **BCA student** specializing in **frontend development, graphic design, and UI/UX design**. Proficient in React.js, Next.js, Angular, HTML, CSS, Bootstrap, JavaScript, and TypeScript, I create dynamic and responsive web interfaces. In graphic design, I develop posts, brochures, and banners that align with user and brand goals. With a focus on delivering user-friendly designs and interfaces, I am eager to apply my skills to real-world projects and further my career in frontend development and graphic design.

SKILLS

Programming Languages: JavaScript | TypeScript

Frontend Development: React.js | Next.js | HTML5 | CSS3 | Bootstrap

DevOps & Tools: Git | Github

Graphic Design: Brochure Design | Post Design | Banner Design (**Adobe Illustrator**)

UI/UX Design: User Interface Design (UI) | Wireframing & Prototyping (**Figma**)

WORK EXPERIENCE

Frontend Developer, Advanced Web & Nextgen Solutions, Khategaon **Feb 2024 - present**

Project 1 : AWNS Website | Tech Stack - Next JS, JavaScript, Bootstrap

Built a static website for AWNS using Next.js to showcase services and projects. Used server-side rendering for better load times and SEO. Created a responsive, user-friendly design for smooth navigation across devices.

Project 2 : Balaji Hardware | Tech Stack - React, JavaScript, Bootstrap

Built a static website for AWNS using Next.js to showcase services and projects. Used server-side rendering for better load times and SEO. Created a responsive, user-friendly design for smooth navigation across devices.

UI/UX Designer, Advanced Web & Nextgen Solutions, Khategaon **Feb 2024 - present**

Project 1 : AWNS Management System | Tool - Figma

I designed the AWNS Management System using Figma, focusing on a user-friendly and responsive interface. The design ensured clear navigation and a seamless user experience across devices.
